Bearthday: June, 19, 2007, Age: 18

ABOUT ME

More informations about me you can find this: [About me](#)

WORK EXPERIENCE

Freelance

2024 - 2025

- Developed and maintained backend features for web applications using Python, FastAPI, Django, and DRF.
- Designed clean, scalable API endpoints and optimized database queries with PostgreSQL for better performance.
- Wrote unit tests to ensure app stability during updates

EDUCATION

IDU - International Digital University/University Of Wolverhampton

Uzbekistan, Tashkent

- Foundation: Learning “Programming principles with C++”, “Business Management”, “Professional Mathematics”, “Professional English” and “Japanese Language”.

SKILLS:

Programming Languages

Python, C++, JavaScript

Tools/Frameworks/Platforms

Django, Django Rest Framework, FastAPI, Aiogram, Git/GitHub, Linux, Docker, Nginx, Celery (worker, beat, flower), Redis, PostgreSQL, SQLAlchemy, Pydantic

Languages

English(B2), Russian(B2), Uzbek(Native)

CERTIFICATES

Python, Django Backend Development - Najot Ta'lim

May 2023

- Completed a hands-on program covering python programming, sql responding to database with PostgreSQL, and creating web APIs endpoints and their optimizations based on Django (DRF).
